U.R.G.S. PREPARES YOU FOR A CAREER!

Finding a job and access the labour market in Sibiu and in our country has become increasingly more difficult. Employers look for high school and faculty graduates increasingly better prepared and having work experience and young graduates do not always have the experience required by the labour market.

Through the activities carried out in the last 2-3 years, the Romanian-German University of Sibiu (U.R.G.S.) came to meet labour market needs, but also graduates' needs, through the implementation of European projects in which students participate in internships at institutions and companies from Sibiu County and not only.

The Project *Construiește-ți cetatea carierei prin stagii de practică!* In memoria prof.univ. F. Stremțan (“Build your career borough through internships! In memory of prof. F. Stremțan (POSDRU/161/2.1/G/141047), in partnership with “1 Decembrie 1918” University of Alba Iulia and ASPI Bucharest, and the project *Te implici, înveți, câștigi prin stagii de practică!*

– “Get involved, learn, earn through internships!” (POSDRU/189/2.1/G/155674), in partnership with „Nicolae Bălcescu” Land Forces Academy (HRD/189/2.1/G/155674), offered the possibility that more than 300 students from the Faculty of Law and the Faculty of Economics to participate in paid practical stage internships. The successful completion and with outstanding results of these internships was rewarded with prizes in cash for a significant percentage of the students.

At the same time, nearly 500 students have attended sessions of counselling and career guidance, they learned how to prepare a cover letter, a curriculum vitae (CV), how to prepare and present at a job interview etc.

Actions under these projects, consultancy and career guidance activities conducted among students from the Romanian-German University of Sibiu, but also students from high schools in Sibiu in the program doing school differently are for you, future graduates, a first step toward a successful career, a work experience, which, together with volunteering, involvement in the civil society etc., help you gain a range of skills and abilities that are increasingly required by future employers.
